

4/18/68

Dear Lou,

You will recall that when I was down in March I asked for a copy of Gary Schoener's notes. He was then there, helping, and wanted me to have a set of all. Some of this material relates to someone very close to me, geographically.

You searched and said you have nothing from him.

I thereupon wrote him. I think when he sent the enclosed letter, he might not have received mine, which I didn't write until after I returned. In fact, I think it would have been impossible.

Therefore, I particularly direct your attention to the second page. The first marked part relates to this. The second may be of interest to you, Jim, or Boxley.

Xerox of copyright letter arrived today. I'll work on that, in Washington and New York, as soon as I can get to it.

Sincerely,

Harold Weisberg

P.S. If you have anything on the Blue Shirts of Louisiana and Leonard Butler it would be of great interest to me, immediately, because of the National States Rights Party connection, marked in the enclosed clipping from a paper known as "The Independent". I have a little more on Varney for Jim, if he now wants it.
